

2012 Washington State Energy Code - Commercial Provisions Trainings

The Northwest Energy Efficiency Council (NEEC) is pleased to announce topic-specific trainings that focus on the Commercial Provisions of the 2012 WA State Energy Code (WSEC). Experts from the industry will discuss key provisions of this Code as they apply to building envelope assemblies, mechanical systems and lighting systems. These trainings are eligible for continuing education units (CEU).

Final opportunity for NEEC training this year in Western Washington for the 2012 WSEC Commercial Provisions.

TRAINING TOPICS WILL INCLUDE:

GENERAL INFORMATION

- WSEC development process
- Structure of the 2012 WSEC
- Application of climate zones
- Compliance paths

BUILDING ENVELOPE TRAINING

- Envelope assembly requirements
- Thermal bridging criteria
- Daylight zones
- Air barrier requirements and testing
- Refrigerated spaces
- Vestibules
- Existing building additions and retrofits
- Envelope compliance forms

MECHANICAL SYSTEMS TRAINING

- Simple and complex mechanical system criteria
- Damper requirements
- Control system requirements
- Economizer options
- Fan power limitation
- Service water heating systems
- Existing mechanical system retrofits
- Commissioning performance testing and reporting
- Energy source & end-use metering, data acquisition and display
